

www.tdbonline.org

The **TDB** website is being enhanced so that it is a more effective tool for accessing a substantial body of information in this specialized area of engineering and planning.

The 'Home', 'Who We Are' and 'What we Do' pages provide a general overview of the **TDB**. The 'Documents' section has a variety of information consisting of Annual Reports and Minutes, Newsletters, Technical Notes, Workshop presentations, relevant Conference papers and Research Reports.

The public is able to access general information. Technical information, specific to members only, is accessed by 'logging in' from the homepage. Document tags (as shown on the example below) are key words that allow you to easily access files relating to a particular subject.

The 'member access' button will take you to a full list of members and their email addresses. We encourage open discussion between members by using the email address: members@tdbonline.org

Note: The **TDB** database is not yet placed on the website and is only available on a CD issued to members annually.

TDB Document Library

The Trips Database Bureau Online Document Library provides access to information issued by the TDB or related entities. The library uses an indexing system as shown in the left hand column. Use the folder tree to navigate to a folder and click on the folder to display it's contents below.

 If a document listed below doesn't link to the document and has a padlock symbol, it means are required to login to the website to view
